

Job Announcement

Two post-doc positions (12 months each) in the BMBF project “FishFlow” at the Institute for Evolutionary Biology and Ecology

Bonn, 18. März 2021

The workgroup of Prof. Blanke at the Institute for Evolutionary Biology and Ecology (IEZ) would like to strengthen its team with two interdisciplinary thinking applicants, ideally with a background in biomechanics, and/or material science and/or finite element simulation (focused on CFD) and with a doctoral degree either in the Biological Sciences, Engineering Sciences, or Computer Sciences.

The applicant will work within the BMBF funded project “FishFlow”, an initiative which aims to develop a bio-inspired filter system for small plastic particles (“microplastics”). The project is a joint collaboration between the Fraunhofer “UMSICHT” institute, an industrial partner, and the IEZ.

The position is paid according to the provisions of the collective agreement for the public service of the Länder (TV-L) within pay group 13 (100%). Experience levels are taken into account. Apart from a full CV (including own publications and contact details of 2 referees), applications should contain a letter of motivation (1 page) which also details your previous research experience.

The application (as a single pdf file) should be sent to the secretary of the IEZ (secretary@evolution.uni-bonn.de) with the reference “FishFlow”. The deadline for application is June 30th 2021, the estimated start date would be September 2021. If no suitable candidate is found, the position is open beyond these dates. We regret that the state of North Rhine-Westphalia cannot cover application and travel costs.

Equal opportunities are important to us. The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university and aims to increase the proportion of women employed in areas where women are under-represented and to promote their careers. To that end, it urges women with relevant qualifications to apply. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable candidates with a certified disability or equivalent status are particularly welcome.

We look forward to reading your application!
